Note: Comm 40, Gas System requirements below

<b>Liquefied Petroleum Gas - LPG</b>  Comm 40.43 Certificate of installation. Every person, firm, association or corporation installing equipment using liquefied petroleum gas in containers of 125 gallons or larger water capacity shall complete a certificate of installation form. The certificate of installation form shall be completed at the time of installation, shall be kept at the liquefied petroleum gas installation and shall be available for review by an authorized representative of the department. For installations using containers of 2000 gallons or larger water capacity, a copy of the installation form shall also be submitted to the local fire department within 10 business days of the installation.
<b>Liquefied Natural Gas - LNG</b>  Comm 40.52 Certificate of installation. Every person, firm, association or corporation installing liquefied natural gas equipment shall complete a certificate of installation form. The form shall be completed at the time of installation, kept at the installation site and available for review by an authorized representative of the department. A copy of the form shall be submitted to the local fire department within 10 business days of the installation.
<b>Compressed Natural Gas - CNG</b>  Comm 40.62 Certificate of installation. Every person, firm, association or corporation installing compressed natural gas equipment shall complete a certificate of installation form. The form shall be completed at the time of installation, kept at the installation site and available for review by an authorized representative of the department. A copy of the form shall be submitted to the local fire department within 10 business days of the installation.
